ABOUT ME

I have a keen sense of professional listening, and my adaptability allows me to thrive in diverse environments. With a passion for creativity, I am eager to bring my energy and determination to your company's project.

PROFESSIONAL EXPERIENCE

- **ChapterOne – Dashboard Library | October 2025**

Book management website for a public library with administrator authentication.

- **Portfolio – Personal Website | July 2025**

A responsive portfolio showcasing professional experience, projects, education, CV, and a contact form for easy communication.

- **LiveChat – real-time chat application | June 2025**

A chat application with secure user authentication, built using **Spring Boot** and **Angular**, powered by **Web Socket** for instant communication.

- **RentNGo – Car Rental Website | July – August 2024**

A complete car rental platform developed with **Spring Boot**, **Angular**, and **SQL**, providing features for visitors, clients, and administrators. Implemented following the **Scrum methodology**.

- **SPORTSCAPE – Sports Activity Booking Platform | June 2024 (Training Project)**

A booking platform for sports activities, developed with **Spring Boot** and **Angular**.

- **Foodi – Restaurant Management Website | November 2023**

A website that enables users to browse menus and place restaurant orders online.

- **2D Draftsman | January 2023 to October 2023**

Created plans, facades, and sections using **AutoCAD** on 2D layouts.

- **Exterior Architect | January 2023 to October 2023**

Designed 3D architectural models using **SketchUp**.

- **Final Year Project | February 2022 to June 2022**

Developed a **solar tracker system** that automatically follows the sun and transmits performance data to a smartphone via an electronic board.
